Welcome to the world of Midland electronics

Congratulations on your purchase of a high quality MIDLAND product. Your 2-way radio represents the state-of-the-art in high-tech engineering. Designed for GMRS (General Mobile Radio Service) operation, this compact package is big in performance. It is a quality piece of electronic equipment, skillfully constructed with the finest components. The circuitry is all solid-state and mounted on a rugged printed circuit board. Your two-way radio is designed for reliable and trouble-free performance for years to come.

Features
- 42 GMRS/FRS Channel
- 142 Privacy Codes (38 CTCSS / 104 DCS)
- Waterproof JIS4 Standard
- Direct Call
- VOX
- Selectable Call Alert (additional Animal Sound on GXT950)
- NOAA Weather Radio
- NOAA Weather Alert
- NOAA Weather Scan
- Dual Watch
- VIBRATE ALERT
- Scrambler Function
- Monitor Function
- Roger Beep Tone
- Silent Operation
- Keypad Lock
- Power HI/MED/LO Settings
- Speaker / Microphone Jacks
- Battery Meter / Battery Low Indicator

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device does not cause harmful interference, and (2) this radio must accept any interference that may cause undesired operation.

To maintain compliance with FCC’s RF exposure guidelines, for body-worn operation, this radio has been tested and meets the FCC RF exposure guidelines when used with Midland Radio Corp. accessories supplied or designated for this product. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. (Tested with Headset Model: AVP-1)
IMPORTANT NOTICE, FCC LICENSE REQUIRED FOR GMRS OPERATION

The GXT900/950 Series operates on GMRS (General Mobile Radio Service) frequencies which require an FCC (Federal Communications Commission) license. You must be licensed prior to operating on channels 1 - 7 or 15 - 42, which comprise the GMRS channels of the GXT900/950 Series. Serious penalties could result for unlicensed use of GMRS channels, in violation of FCC rules, as stipulated in the Communications Act's Sections 501 and 502 (amended).

You will be issued a call sign by the FCC which should be used for station identification when operating the radio on GMRS channels. You should also cooperate by engaging in permissible transmissions only, avoiding channel interference with other GMRS users, and being prudent with the length of their transmission time.

To obtain a license or ask questions about the license application, contact the FCC at 1-888-CALL FCC or go to the FCC's website: http://www.fcc.gov and request form 605.

Exposure To Radio Frequency Energy

Your Midland radio is designed to comply with the following national and international standards and guidelines regarding exposure of human being to radio frequency electromagnetic energy:
- American National Standards Institute (ANSI)/Institute of Electrical & Electronic Engineers (IEEE) C95. 1-1992
- Institute of Electrical and Electronic Engineer (IEEE) C95. 1-1999 Edition
- International Commission on Non-Ionizing Radiation Protection (ICNIRP) 1998

To control your exposure and ensure compliance with the general population or uncontrolled environment exposure limits, transmit no more than 50% of the time. The radio generates measurable RF energy exposure only when transmitting.

IMPORTANT: Changes or modifications to this unit not expressly approved by MIDLAND RADIO CORP. could void your right to operate this unit. Your radio is set up to transmit a regulated signal on an assigned frequency. It is against the law to alter or adjust the settings inside the COMMUNICATOR to exceed those limitations. Any adjustment to your radio must be made by qualified technicians.
1. BATTERY METER – Indicates the battery level.
2. SCRAMBLER ICON – Indicates when the Scrambler feature is on.
3. KEY LOCK ICON – Indicates KEY LOCK mode is on.
4. VOX ICON – Indicates when VOX mode is active.
5. NOAA WEATHER (WX) BAND ICON – Indicates when the radio is in Weather Band mode.
6. CHANNEL NUMBER – Changes from 1~42 on GMRS/FRS band (1~10 on WX band).
7. PRIVACY CODE – Indicates Privacy Code selected by user (OF~38/oF~104).
   It can only be used on Ch 1~22.
8. GROUP MODE ICON – Indicates when the Group Mode is on.
9. VIBRATE ALERT ICON – Indicates when the Vibrate-Alert feature is on.
10. RECEIVE (RX) ICON – Indicates radio is receiving a transmission.
11. TRANSMIT (TX) ICON – Indicates radio is transmitting a signal.
12. TRANSMIT POWER LEVEL ICON – Indicates TX Power setting (H/M/L)
14. POWER/VOLUME KNOB – Turn clockwise to turn the power on and increase the volume level. Turn counter-clockwise to decrease the volume level and turn the power off.
15. PTT Button – Press and hold to transmit voice communication.
16. CALL/LOCK Button – Press to send a CALL Alert signal. Press and hold to turn KEY LOCK on/off.
17. UP ▲ and DOWN ▼ Button – Make adjustments in MENU mode.
18. SPEAKER – Built-in speaker.
19. ANTENNA.
20. EXTERNAL SPEAKER/MIC JACK.
21. MENU/WX SCAN Button – Press to access Menu mode. Press and hold for 5 seconds to activate the NOAA Weather Scan function.
22. MONITOR/SCAN Button – Press to enter SCAN mode. Press and hold to enter MONITOR mode.
23. MIC – Built-in microphone.
Your GXT900/950 Series radio operates with either 4 AA alkaline batteries or an optional NiMH battery pack. The belt clip should be removed (see below) to ease installation or removal of the batteries. To install the batteries:

1. With the back of the radio facing you, remove the belt clip (see diagram below) for easy access, then remove the Battery Cover by pulling down the Battery Cover Latch and lifting up the Battery Cover from the radio.

2. Insert 4 AA batteries observing the polarity as shown. Installing the batteries incorrectly will prevent the radio from operating or may damage the radio.

3. Return the Battery Cover by sliding it up on the radio and push up the Battery Cover Latch until it locks into place. Replace the belt clip, making sure it locks into place.

### INSTALLING THE BELT CLIP

To install the BELT CLIP, slide the clip down into the slot on the back of the radio until the BELT CLIP LATCH clicks. To remove the BELT CLIP, press the LOCK TAB down, then gently pull the belt clip up toward the top of the radio.
CHARGING THE OPTIONAL BATTERY PACK

Your GXT900/950 Series is equipped for using an optional rechargeable NiMH battery pack (included) which can be recharged using a desktop charger (included). Initial charge time is 24 hours with a charge time of 12 hours thereafter. For maximum battery life, we recommend charging the battery pack when the low battery icon comes on. Remove the radios from the charger when the charge time expires.

To charge using a Desktop Charger:
1. Place the rechargeable battery packs in the radios.
2. Connect the AC adapter into an AC wall outlet.
3. Insert the AC adapter plug (or DC Cigarette Lighter adapter if charging in vehicle) into the desktop charger jack.
4. Place the units into the desktop charger slot and note that the LED indicator with RED color will light up, indicating charging function.

In order to ensure that the battery pack is fully charged, it is recommended that the battery pack be charged for at least 12 hours with the radio turned OFF.

- Only use our NiMH battery pack.
- Do not attempt to charge alkaline batteries or any batteries or battery packs other than the one indicated in the manual. This may cause leakage and damage to the radio.
- For long term storage of the radio, turn the radio OFF and remove the batteries from the radio.

BATTERY LEVEL INDICATOR

Your GXT900/950 Series has a BATTERY LEVEL METER that shows the battery power level. The greater the number of bars visible, the stronger the battery level. When the battery level is low, the Battery Shell icon and “Lo bt” will flash in the display indicating your batteries should be replaced or recharged if using a rechargeable battery pack.
OPERATING YOUR RADIO

POWER ON/OFF AND VOLUME
Rotate the POWER/VOLUME knob clockwise to turn the radio on and increase the volume level. Rotate the control counter-clockwise to reduce the volume level and to turn the radio off. During Power On, the radio will beep 2 times with different tones, the LCD will display all icons for 1 second and the LCD display will indicate the last channel selected.

TRANSMITTING AND RECEIVING A CALL
To communicate, all radios in your group must be set to the same channel and Privacy Code.
1. For maximum clarity, hold the radio 2 to 3 inches from your mouth.
2. Press and hold the PTT button and speak in a normal voice into the microphone. The TX icon will appear continuously on the LCD Display while transmitting.
3. To receive a call, release the PTT button. The RX icon will appear on the display when your radio is receiving a transmission.

ABOUT RANGE
Your GXT Series radios are designed to give you maximum range under optimum conditions.

Optimum Conditions are:
- Over water
- Open rural areas without obstructions
- Flat areas where you can see the other person

To ensure you get maximum range:
- Be sure to use fresh or fully charged batteries - low batteries will cause low power conditions
- Be sure you are on a GMRS channel - FRS channels are restricted by the FCC to low power
- Be sure to set your radio to use Hi power.
MONITOR
Pressing and holding the MONITOR button for 1 second will let you hear noise so you can adjust the volume level of the radio when not receiving a signal. This should be used to check activity on your current channel before transmitting.
Press and hold the MONITOR button for 1 second again to get out of MONITOR mode.

SCAN
Your GXT900/950 Series can scan all 42 channels for activity. To enter, quickly press the SCAN button. Repeat the same procedure to exit. Your radio will rapidly scan each of the 42 channels and stop on any active channel. Your radio will resume scanning after 4 seconds when the channel is no longer active.
When you press the PTT button to transmit on an active channel, the scanning function will stop and remain on the active channel for 10 seconds before resuming scan when PTT button is no longer pressed.
To resume scanning, quickly press the ▼/▲ button.

CALL ALERT
Your GXT900/950 Series can transmit a call alert for a fixed length of time. To send a call alert, press the CALL button. The TX icon will appear while transmitting a call alert and a tone can be heard on the speaker for confirmation.
The GXT900 has 10 call alert selections while the GXT950 has 15 call alerts including 5 “animal sound” call alerts - Turkey, Duck, Crow, Cougar, Wolf.
KEYPAD LOCK
To avoid accidentally changing the radio setting, press the LOCK button for 2 seconds. The KEY LOCK icon will appear on the display. PTT and CALL will still be active. Repeat the same procedure to unlock the keypad.

DISPLAY ILLUMINATION
During Power on, the display illumination will activate for approx. 5 seconds. The display illumination can also be activated when the MENU, MON/SCAN, and ▼/▲ button is pressed.

CHANNEL SELECTION (GMRS/FRS BAND)
Press the MENU button once, and then the ▼/▲ buttons to select one of the 42 GMRS/FRS channels. To confirm the selection, press the PTT button or press the MENU button again to move to the next feature setting.

USING THE RADIO IN GROUP MODE
Your GXT900/950 Series has GROUP MODE function which lets you make “direct calls” to other people within the group without alerting the entire group. The GROUP MODE function only works on channels 1~22. It does not operate on channels 23~42.

In order to use the GROUP MODE function you need to set the following in your radio:

- Set the radio to Group Mode
- Set a Group Code
- Set the ID
- Set the Caller ID
- Set the Ring Tone

**Note**: To communicate between two GXT900/950 Series radios in Group Mode, the radios in your group must be set to the same channel and Group Code selections.

**Note**: The GROUP Mode function only operate in channels 1~22.
SETTING THE RADIO TO GROUP MODE
To turn the GROUP MODE on, press the MENU button until the display shows “Gr” blinking, while an “of” appears on the right of the display. Select “on” by pressing the \u2193/\u2191 buttons and press the PTT button to confirm or press MENU button again to move to the next feature setting.
When the radio is in GROUP MODE the Group Mode icon will appear on the display.

SETTING GROUP CODES
Your GXT900/950 Series has 142 Group Codes available. To select a Group Code press the MENU button while in Group Mode until the Privacy Code blinks, and then the \u2193/\u2191 buttons to select one of the 142 Group Codes. The Privacy Code icon on the display will indicate your Group Code setting. To confirm the selection, press the PTT button or press MENU button again to move to the next feature setting.

SETTING THE ID NUMBER
Your GXT900/950 Series has 10 ID Number available. The selected ID Number may be different for each Group Code. To select an ID Number for the current Group Code press the MENU until the display shows “Id”, while the current ID number setting appears blinking on the right of the display. Press the \u2193/\u2191 buttons to select one of the 10 ID Numbers. To confirm the selection, press the PTT button or press MENU button again to move to the next feature setting.

SETTING THE CALLER ID NUMBER
You can select your individual 4-digit Caller ID Number to indicate you when making “direct call” to other radios within your group. To set your Caller ID Number within the current channel, Group Code and ID number press the MENU button while in Group Mode 5 times, and then press the \u2193/\u2191 buttons to select “1 ~ 9” on each digit. To move to another digit press the MON/SCAN button. To confirm the selection, press the PTT button or press MENU button again to move to the next feature setting.
SETTING THE RING TONE
Your GXT900/950 has 5 selectable Ring Tone. Your selected ring tone will beplaybacked when receiving a “direct call” from another person of the same Group Code and ID Number. To select a Ring Tone for the current Group Code and ID Number press the MENU button until an “rt” appears on the display, and then the ▼/▲ buttons to make the selection. To confirm the selection, press the PTT button or press MENU button again to move to the next feature setting.

MAKING A DIRECT CALL
Your GXT900/950 Series has a “direct call” function which enables you to call another person without alerting the other people within the group.

In order to make a direct call to another radio while in Group Mode, both must have the same channel, Group Code, and ID Number.

To make a “direct call” press the CALL button while in Group Mode, an “AL” will appear on the display. Press the ▼/▲ buttons to select the ID Number of the radio that you will call. Press again the CALL button to send the direct call. Only the radio with the same ID Number will receive the call.

You can also send a “direct call” to all the radio within the group. Press the CALL button while in Group Mode, an “AL” will appear on the display. Press again the CALL button to send the direct call and all the radio within the group will receive the call.
Model GXT900/950 Series

Using the Radio in Standard Mode

You can set your GXT900/950 Series to Standard Mode to communicate with radios which do not have the Group Mode feature.

Setting the Radio to Standard Mode

To turn the STANDARD MODE on, press the MENU button until the display shows “Gr” blinking, while an “on” appears on the right of the display. Select “of” by pressing the ▼/▲ buttons and press the PTT button to confirm or press MENU button again to move to the next feature setting.

When the radio is in STANDARD MODE the Group Mode icon will disappear on the display.

Setting Privacy Codes

When the GROUP Mode is turned off, you can use the normal Privacy Codes which is common to other radios which are set to Group Mode. Your GXT900/950 Series has 142 Privacy Codes available which can only be used on channels 1~22. The selected Privacy Code may be different for each channel. To select a Privacy Code for the current channel press the MENU button twice, and then the ▼/▲ buttons to select between “Off/CTCSS/DCS”. Press again the MENU button and the ▼/▲ button to select one of the 38 CTCSS Codes or one of the 104 DCS Codes.

The Privacy Code icon on the display will indicate whether you set your Privacy Code in CTCSS or DCS mode. To confirm the selection, press the PTT button or press MENU button again to move to the next feature setting.

Note: If you select any CTCSS Privacy Code, any pre-selected DCS Privacy Code will be cancelled and vice-versa. Selecting a Privacy Code of "of" will disable the Privacy feature. To communicate between two GXT900/950 Series radios, all radios in your group must be set to the same channel and Privacy Code selections. The Privacy Code can only be set in channels 1~22.
SETTING SCRAMBLER FUNCTION
Your GXT900/950 Series has a SCRAMBLER function that will change the sound being transmitted; making it incomprehensible to other users with different radios. This will enable you to communicate privately with other GXT900/950 with SCRAMBLER function.

To turn the SCRAMBLER function on, press the MENU button until the display shows an “Sc” icon while on the right of the “Sc” display, an “of” icon appears. Select “on” by pressing the ▼/▲ buttons and push the PTT key or MENU button.

To communicate properly using the SCRAMBLER function, both radios’ SCRAMBLER function must be turned on.

To turn the SCRAMBLER function off, press the MENU button until the display shows an “Sc” icon while on the right of the “Sc” display, an “on” icon appears. Select “of” by pressing the ▼/▲ buttons and push the PTT key or MENU button.

TRANSMIT (TX) POWER LEVEL SELECTION
Your GXT900/950 Series has 3 power level settings. To select the power level on channels 1~7, 15~33 and 38~42, press the MENU button until a “Pr” icon will appear blinking on the display. Then press the ▼/▲ buttons to select TRANSMIT POWER LEVEL icon (H: Hi/ M: Mid/ L: Lo). To confirm, press the PTT button or press MENU button again to move to the next feature setting. When the Battery Meter drops to 1 bar, the TX Power will automatically switch from Hi(H) or Med(M) to Lo(L) level.

Note: You cannot adjust the power setting on the FRS channels (8~14 and 34~37). They are set to Low power per FCC regulations.

VOX (Hands-free Transmission)
Your radio has 9 VOX level settings: (of/1~9).

To set VOX, press the MENU button until the display shows “VOX” blinking while on the right of the CHANNEL NUMBER display, an “of” icon appears. Select “1~9” by pressing the ▼/▲ buttons and push the PTT key, or press MENU button again to move to the next feature setting.

VOX will be more sensitive on the “1” setting than on the “9” setting.

To turn VOX off, press the MENU button until the display shows “VOX” blinking while on the right of the CHANNEL NUMBER display, a “1~9” icon appears. Select “of” by pressing the ▼/▲ buttons and push the PTT key, or press MENU button again to move to the next feature setting.
SILENT OPERATION
Your GXT900/950 Series has a SILENT OPERATION mode. In this mode, all “beeps” and “tones” are disabled.

To turn the SILENT OPERATION mode on, press the MENU button until the display shows an “bp” icon while on the right of the “bp” display, an “on” icon appears. Select “of” by pressing the ▼/▲ buttons and push the PTT key or MENU button.

To turn the SILENT OPERATION mode off, press the MENU button until the display shows an “bp” icon while on the right of the “bp” display, an “of” icon appears. Select “on” by pressing the ▼/▲ buttons and push the PTT key or MENU button.

ROGER BEEP (end of transmission) TONE
When the PTT button is released, the radio will beep to confirm to other users that your transmission has finished.

To turn the ROGER BEEP tone on, press the MENU button until the display shows an “rb” icon while on the right of the “rb” display, an “of” icon appears. Select “on” by pressing the ▼/▲ buttons and push the PTT key, or press MENU button to move to the next feature setting.

To turn the ROGER BEEP tone off, press the MENU button until the display shows an “rb” icon while on the right of the “rb” display, an “on” icon appears. Select “of” by pressing the ▼/▲ buttons and push the PTT key, or press MENU button to move to the next feature setting.

CALL ALERT SELECTION
Your GXT900 Series has 10 selectable CALL ALERTS (15 for GXT950). To select, press the MENU button until a “CA” icon appears and to the right of the “CA” icon the current CALL ALERT setting is displayed. Then press the ▼/▲ buttons to make the CALL ALERT selections, the radio will emit a corresponding tone for each selection. To confirm, press the PTT button or press MENU button to move to the next feature setting.

Note: GXT950 has 5 additional “Animal Sound” CALL Alerts - Turkey, Duck, Crow, Cougar, Wolf.
VIBRATE ALERT
To turn the VIBRATE ALERT on, press the MENU button until the display will show the VIBRATE ALERT icon blinking, while on the right of the CHANNEL NUMBER, an “of” icon appears. Select “on” by pressing the ▼/▲ buttons and push the PTT button, or press MENU button. The VIBRATE ALERT icon will remain on the display.

To turn the VIBRATE ALERT off, press the MENU button until the display will show the VIBRATE ALERT icon blinking, while on the right of the CHANNEL NUMBER, an “on” icon appears. Select “of” by pressing the ▼/▲ buttons and push the PTT button, or press MENU button. The VIBRATE ALERT icon will go off.

NOAA WEATHER RADIO/SCAN
Your GXT900/950 Series has a NOAA WEATHER RADIO function, to enable user to receive weather reports from designated NOAA stations.

Your GXT900/950 Series also has a NOAA WEATHER SCAN function, to enable user to scan all the 10 channels of the NOAA WEATHER RADIO.

To turn the NOAA WEATHER SCAN on, press and hold the MENU button for 5 seconds while in GMRS mode. The radio will go to WX Band mode and start scanning all the 10 channels and stop on any active channel. When the channel becomes inactive for 10 seconds the radio will resume scanning.

To stop the NOAA WEATHER (WX) SCAN and set the channel manually on the WX Band, press the MENU button during NOAA WEATHER (WX) SCAN. The radio will stop scanning and the display will show the current WX Band channel setting and the WX Band icon. While on WX Band mode press the ▼/▲ buttons to select one of the 10 NOAA WEATHER (WX) BAND channels. To confirm, press the PTT button or press MENU button to move to the next feature setting.

To turn the NOAA WEATHER RADIO off, press the PTT button. The current GMRS/FRS radio setting will be displayed and the WX BAND icon will go off.

NOAA WEATHER ALERT
Your GXT900/950 has a NOAA WEATHER ALERT function, to enable you to automatically receive weather alert from designated NOAA stations.
The **NOAA WEATHER (WX) ALERT** is automatically on during **NOAA WEATHER SCAN** mode.

To turn the **NOAA WEATHER (WX) ALERT** on during normal **NOAA WEATHER RADIO** mode, press the **MENU** button twice while in **NOAA WEATHER SCAN** mode. The display shows "**AL**", while on the right an "**oF**" icon appears blinking. Select "**on**" by pressing the \(\downarrow/\uparrow\) buttons. To confirm, press the **PTT** button or press **MENU**. The radio will return to **WX BAND** and the **WX BAND** icon will continue blinking. If the radio receives a **WX ALERT** signal from a designated **NOAA** station while on **GMRS/FRS Radio** mode, the radio will beep for 10 seconds while an "**AL**" and "**In**" icon appear on the display, after which will automatically go to **WX BAND**.

If any button is pressed during beeping while on **GMRS/FRS Radio** mode, the radio will automatically go to **WX BAND**.

To turn the **NOAA WEATHER (WX) ALERT** off, press the **MENU** button twice while in **WX Band**. The display shows "**AL**", while on the right an "**on**" icon appears blinking. Select "**oF**" by pressing the \(\downarrow/\uparrow\) buttons. To confirm, press the **PTT** button or press **MENU**.

\[\text{Note : The WX Alert is automatically ON during WX SCAN mode.}\]

**DUAL WATCH FUNCTION**

Your GXT900/950 Series has a **DUAL WATCH** function, to enable user to scan 2 channels for any activity. The first channel will be the current channel setting and the second channel will be the selected channel on the **MENU**.

To turn the **DUAL WATCH** on, press the **MENU** button until the "**oF**" icon appears blinking on the left of the display, while the "**dU**" icon appears on the left. Select the second channel by pressing the \(\downarrow/\uparrow\) button. Press again the **MENU** and the \(\downarrow/\uparrow\) button to choose the Privacy Code (**oF/dc/ct**). Then press again the **MENU** and \(\downarrow/\uparrow\) button to set the Privacy Code. **Pls. note that the Privacy Code could be set only on Ch1~22.** To confirm, press the **PTT** button or press **MENU**.

The **RX** and **TX** icon will appear at the same time to signify that the **DUAL WATCH** function is on and the radio will start to scan both the current channel/code-in-use and the selected channel/code and stop on any active channel. Your radio will resume scanning after 4 seconds when the channel is no longer active.
When you press the PTT button to transmit on an active channel, the scanning function will stop and remain on the active channel for 10 seconds before resuming scan when PTT button is no longer pressed. To resume scanning, quickly press the PTT button. To turn the DUAL WATCH function off, press the SCAN button.

EXTERNAL SPEAKER/MICROPHONE JACK
Your GXT900/950 Series can be used with an optional external speaker/microphone or headset, freeing your hands for other tasks. To use an optional speaker / microphone or headset:

- Open the rubber cap on the side of the radio.
- Insert the plug(s) into the SPK/MIC jacks
- Place the earbud into your ear, and adjust the mic into your desired position.

Note: You can charge a rechargeable NiMH battery pack thru the CHG Jack
## TROUBLESHOOTING GUIDE

<table>

<tr>
<th>PROBLEM</th>
<th>SOLUTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>No Power</td>
<td>- Check battery installation and/or replace batteries</td>
</tr>
</tbody>
</table>
| Cannot Receive Messages     | - Confirm the radios have the same channel and Privacy Code settings.  
- Make sure that you are within range of the other transceivers.  
- Buildings and other structures may interfere with your communication.  
*(See ABOUT RANGE on Page 9)* |
| Radio is not responding to button presses | - Make sure key lock is not on. See "Keypad Lock" (Page 11).  
- Radio might need to be reset. Turn radio off then on.  
- Ensure accessory microphone is set properly |
| Display is dim              | - Recharge or replace batteries. |
| Charger not functioning     | - Contacts on the bottom of the radio may require cleaning.  
- Ensure the outlet where the charger is plugged into is functioning properly.  
- Check that the battery pack is installed in the radio properly. |

## USE AND CARE

1. Use a soft damp cloth to clean the radio  
2. **Do not** use alcohol or cleaning solutions to clean the radio.  
3. **Do not** submerge the radio in water.  
4. Dry the radio with dry lint-free cloth should it get wet.  
5. Turn off the radio and remove the batteries during long-term storage.

If you have a problem which you believe requires service, please call first and speak with a service technician. Many problems can be remedied over the phone without returning the unit for service.

LIMITED WARRANTY

Midland Radio Corporation will repair or replace, at its option without charge, any Midland FRS/GMRS transceiver which fails due to a defect in material or workmanship within Three Years following the initial consumer purchase. This warranty does not apply to water damage, battery leak or abuse.

Accessories have a 90 day warranty from date of purchase, including any antennas, chargers, or earphones. This warranty does not include the cost of labor for removal or re-installation of the product in a vehicle or other mounting. Performance of any obligation under this warranty may be obtained by returning the warranted product, prepaid freight, along with proof of purchase to:

Midland Radio Corporation
Warranty Service Department
5900 Parretta Drive
Kansas City, MO 64120

This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state.

Note: The above warranty applies only to merchandise purchased in the United States of America or any of the territories or possessions thereof, or from a U.S. Military exchange.
